See below to discover what Viewpoint can do for you:

Viewpoint boasts 100+ configurable and customer-driven transactions to provide real-time, accurate inventory, production and time & labor information to deliver a clearer view of your complex business.

**Ensure Inventory Accuracy**  
Trace inventory moves, issues, receipts and the people accountable in real-time to ensure materials are where they need to be when they need to be there.

**Manage Picks and Staging**  
Use your hand-held device in the warehouse to pinpoint item location and efficiently stage and label the correct materials for production, packaging and shipping.

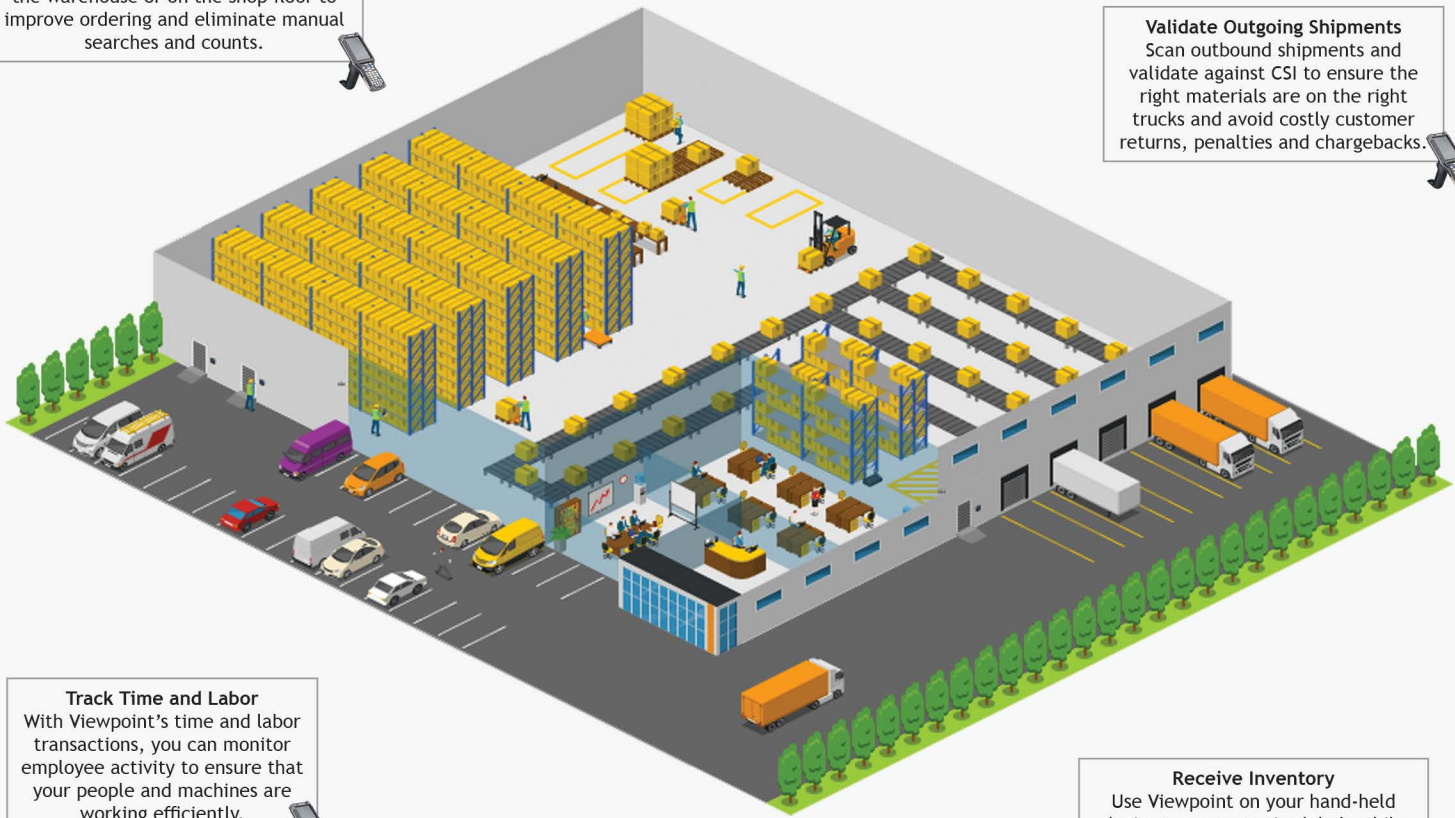

**Receive Incoming Transfers**  
Scan barcodes on incoming inventory to validate orders and get materials put away faster.

**Get Real-Time Counts**  
Use Viewpoint to update CSI and capture accurate inventory counts in transit, in the warehouse or on the shop floor to improve ordering and eliminate manual searches and counts.

**Validate Outgoing Shipments**  
Scan outbound shipments and validate against CSI to ensure the right materials are on the right trucks and avoid costly customer returns, penalties and chargebacks.

**Track Time and Labor**  
With Viewpoint's time and labor transactions, you can monitor employee activity to ensure that your people and machines are working efficiently.

**Receive Inventory**  
Use Viewpoint on your hand-held device to scan or print labels while receiving POs, reducing time to production and optimizing shipping.

**Reduce Time from Order to Fulfillment**  
Validate on-hand inventory and ensure you have everything you need for customer orders and day-to-day production to get your products out the door faster.

**Locate and Manage Inventory**  
Use Viewpoint and your hand-held device to zero in on the location of materials and stop sending your runners and expeditors on scavenger hunts.

**Automate Label Printing**  
Use Viewpoint to automatically generate and print labels as part of any process, including receiving, production and shipping.

**Flexible, Scalable and Fully Functional Out of the Box**

With Viewpoint, you get 100+ robust, configurable Infor CloudSuite Industrial (SyteLine) barcode data-collection transactions.

Unlike other products, there's no need for expensive and time-consuming customizations. Nutech's customer-driven-development strategy ensures the functionality you need is already in the product.

Viewpoint is an out-of-the-box solution that works the way you do.

Setup is so easy that real-time data flows seamlessly from the factory and warehouse floor to Infor SyteLine within hours of installation.

**Empower Infor CloudSuite™ Industrial (SyteLine) with Viewpoint**

Viewpoint adds powerful functionality to SyteLine.

The 100+ transactions eliminate tedious multi-step processes to deliver end-to-end warehouse management through up-to-the-minute production, work-in-process (WIP), labor and inventory reporting.

With multi-level license plating, you get cradle-to-grave traceability and unlimited parent-child relationships to track material characteristics, ensure industry compliance and deliver the quality your customers require.

Build trust in your inventory accuracy. With Viewpoint, you will see increased inventory traceability and get real-time, accurate information at your fingertips to enable faster, better decision-making.

**Dedicated Support When You Need It**

Nutech Systems is dedicated to customer support.

Our onshore support team understands the complexities of your business and is available to provide hardware and software support by phone, chat, or email during your working hours.

With over 30 years of experience, we are barcode data-collection experts. Our team designs, implements and supports Viewpoint; barcode data-collection is all we do.

Contact us today and see why we are your alternative!

## Nutech Systems – The Industry Leader

### About us:

With offices in Grand Rapids, Michigan, and Toronto, Canada, Nutech Systems has developed barcode data-collection solutions for over 30 years.

When you need the information to power your business, Nutech is the company you can trust.

Our flagship product, Viewpoint, is a robust barcode data-collection system that works with all leading ruggedized mobile devices and integrates seamlessly with Infor CloudSuite Industrial (SyteLine).

The innovative suite of products delivers up-to-the-minute inventory, production and time & labor reporting through a suite of 100+ configurable and customer-driven transactions.
