viewpoint

See below to discover what Viewpoint can do for you:

Viewpoint boasts 100+ configurable and customer-driven transactions to provide real-time, accurate inventory, production, and time & labor information to deliver a clearer view of your complex business.

Ensure Inventory Accuracy
Trace inventory moves, issues, receipts, and the people accountable in real-time to ensure materials are where they need to be when they need to be there.

Manage Picks and Staging
Use your handheld device in the warehouse to pinpoint item location and efficiently stage and label the correct materials for production, packaging, and shipping.

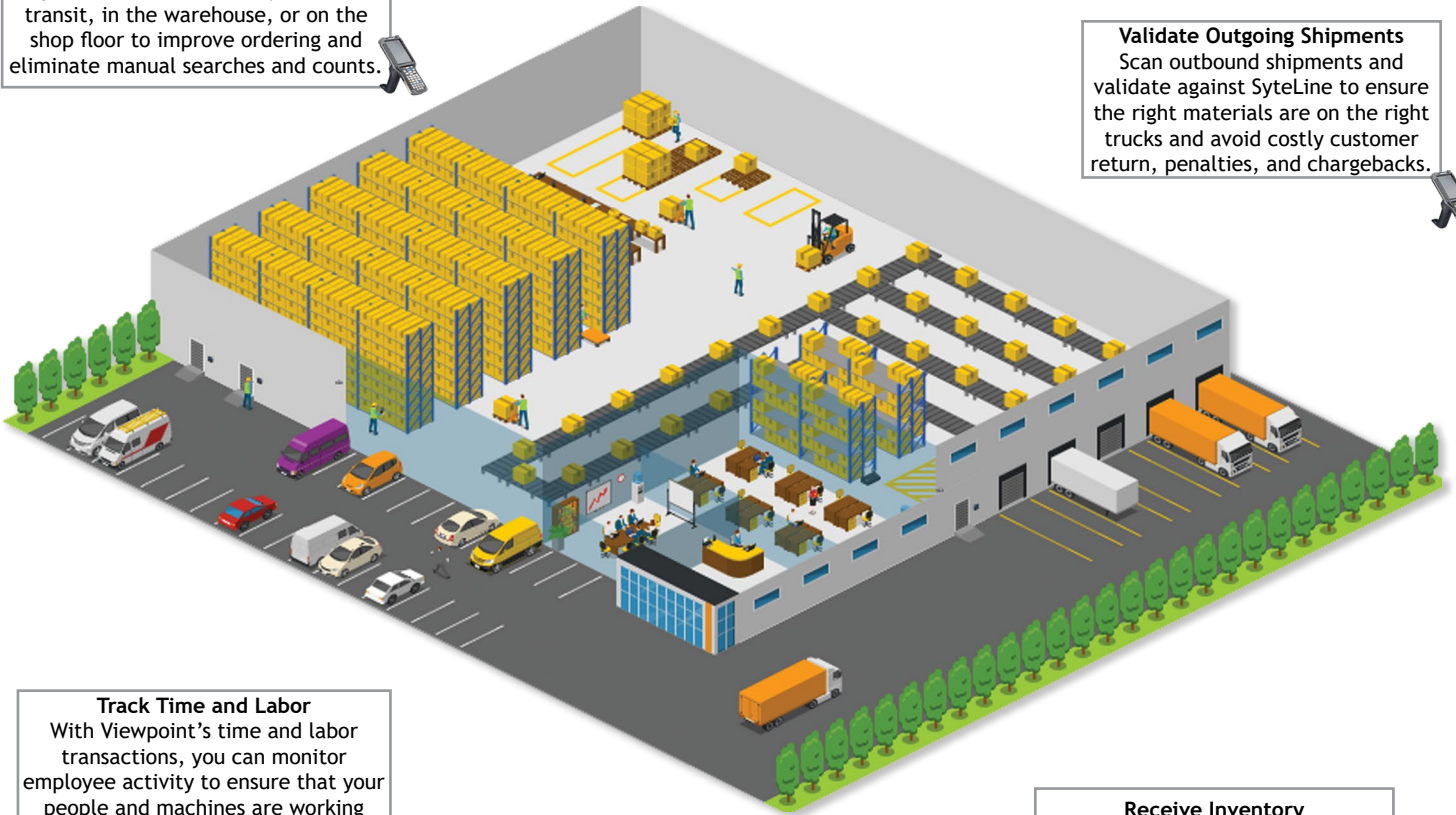

Receive Incoming Transfers
Scan barcodes on incoming inventory to validate orders and get materials put away faster.

Get Real-Time Counts
Use Viewpoint to update SyteLine and capture accurate inventory counts in transit, in the warehouse, or on the shop floor to improve ordering and eliminate manual searches and counts.

Validate Outgoing Shipments
Scan outbound shipments and validate against SyteLine to ensure the right materials are on the right trucks and avoid costly customer return, penalties, and chargebacks.

Track Time and Labor
With Viewpoint's time and labor transactions, you can monitor employee activity to ensure that your people and machines are working efficiently.

Reduce Time from Order to Fulfillment
Validate on-hand inventory and ensure you have everything you need for customer orders and day-to-day production to get your products out the door faster.

Locate and Manage Inventory
Use Viewpoint and your handheld device to zero in on the location of materials and stop sending your runners and expeditors on scavenger hunts.

Receive Inventory
Use Viewpoint on your handheld device to scan or print labels while receiving POs, reducing time to production and optimizing shipping.

Automate Label Printing
Use Viewpoint to automatically generate and print labels as part of any process, including receiving, production, and shipping.

Viewpoint Transactions for Infor SyteLine

The Viewpoint Advantage

Flexible, Scalable, and Fully Functional Out of the Box

With Viewpoint, you get 100+ robust, configurable Infor Syteline barcode data-collection transactions.

Unlike other products, there's no need for expensive and time-consuming customizations. Nutech's customer-driven development strategy ensures the functionality you need is already in the product.

Viewpoint is an out-of-the-box solution that works the way you do.

Setup is so easy that real-time data flows seamlessly from the factory and warehouse floor to Infor Syteline within hours of installation.

Empower Infor Syteline with Viewpoint

Viewpoint adds powerful functionality to Syteline.

The 100+ transactions eliminate tedious multi-step processes to deliver end-to-end warehouse management through up-to-the-minute production, work-in process (WIP), labor, and inventory reporting.

With multi-level license plating, you get cradle-to-grave traceability and unlimited parent-child relationships to track material characteristics, ensure industry compliance, and deliver the quality your customers require.

Build trust in your inventory accuracy. With Viewpoint, you will see increased inventory traceability and get real-time, accurate information at your fingertips to enable faster, better decision-making.

Dedicated Support When You Need It

Nutech Systems is dedicated to customer support.
